FEATURES

- Touch free hygienic operation preventing cross contamination.
- Infra red sensor activates on and off for extra economy.
- Timed shut-off set at approximately 20 seconds.
- Vortex spray head non scaling, maintenance free.
- Swivel 160mm stainless steel spray arm.
- Overheat user protection.
- Fully temperature stabilized.
- No standing heat loss.
- Compact ergonomic design.

SITE REQUIREMENTS

Shower to be permanently connected to the mains power supply via an isolating switch to comply with AS/NZS standards.

Cold water connections to include a separate insulating valve for maintenance, water pressure range of .07 - 10 bar.

While the unit has an integral strainer it is highly recommended that an external filter be fitted after the isolation valve.

.....

Supreme Autosensor is a unique hand wash unit operated by a no-touch sensor activating the water supply aiding hygiene where cross-contamination must be avoided. Supreme Autosensor is the ideal product in locations from Hospitals to food preparation areas. The unit is fitted with a patented non-scaling vortex spray outlet which eliminates the need for costly maintenance. It even has an automatic shut off to eliminate water waste.
